DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's amendment filed on January 26, 2006. Claims 1 and 11 have been amended. Claims 2, 3, 5-10, 13-22 have been cancelled. Claim 23 is newly added. The claims, as amended, have been carefully considered and are being rejected as follows.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 11, 12, and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Witherow (U.S. Patent No. 4,217,903). Witherow discloses in Figure 2 a tube (15) comprising an extension in the form of branches (11, 12) protruding at the distal end of the tube (15) and branch (11) forming a platform, the device further comprising a balloon (13) structure. The Witherow device would inherently be capable of utilizing in the cancellous bone and as well as performing the steps in the method claims.

The introductory statement of intended use and all other functional statements have been carefully considered but deemed not to impose any structural limitations on the claims

distinguishable over the Witherow device in the sense of 35 USC 103 which is capable of being as set forth in these claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
